01/2008	585	54	8.89%	52
02/2008	255	N/A	0.39%	1
12-month Avg. ***	486.8	47.8	47.26%	230.1
Total for 2004	5,812	-51	53.06%	3,084
Total for 2005	5,233	-579	60.94%	3,189
Total for 2006	5,268	35	50.00%	2,634
Total for 2007	5,842	574	47.26%	2,761

* "Change from Previous Year" indicates the change in referrals for a given month in comparison to that same month one year before (for example, if you are looking at the total from 10/2007, the total number of referrals is 38 more than the total from 10/2006).

** IFSP numbers listed and grouped by referral date, not the date the IFSP was written.

*** 12-month average is the average for the last 12 months in which it was possible for a referral to go over 45 days (for example, if the report is for February 7, then no January referrals would have had a chance to go over 45 days yet, so the 12-month average will take into account the last 12 months ending in July).

SPOE Data

* Some numbers may differ slightly from report to report due to factors like overlapping IFSP dates or lack of primary program eligibility. If you spot a larger error that needs to be addressed, please contact webrepliespedc@dese.mo.gov.

** If you have any requests for data that could be added to this report, please contact webrepliespedc@dese.mo.gov.

Data as of

Report Date **:

2/29/2008

* - If a child has gone over 45 days because of Parent/Family reasons, they have an "acceptable reason" and are not included in this table.

** - Data for this page comes directly from the 'My EI Kids' lists from the WebSPOE system and has a different report date than the rest of the data in this report.

*All "Active Infants and Toddlers" have an active IFSP and have not been inactivated.

^ 'Adjusted IFSPs' is the sum of Total Active IFSPs and children who had IFSPs, were withdrawn from the program, and were still under 3 years old as of the report date below.

Population numbers are grouped by county to be sorted into SPOEs.

*All "Active Infants and Toddlers" have an active IFSP and have not been inactivated.

Data as of Report Date: 2/19/2008

** Children with an Initial IFSP meeting still ongoing as of the report date below are not counted in this report.

The following are definitions of each primary setting according to OSEP:

Community Setting - e.g. Program Designed for Typically Developing Children; services are provided in a program regularly attended by a group of children. Most of the children in this setting do not have disabilities. For example, this includes children served in regular nursery schools and child care centers.

Home - Services are provided in the principal residence of the child's family or caregivers.

Hospital (inpatient) - Hospital refers to a residential medical facility. Child must be receiving services on an inpatient basis.

Other Setting - Any service setting not included in the settings or programs listed above. For example, if the only component of the infant's early intervention services is parent counseling during which the child is not present, and the child receives no direct service, count as "other."

Residential Facility - Residential facility refers to a treatment facility which is not primarily medical in nature, where the infant or toddler currently resides.

Service Provider Location - Service provider locations are provided at an office, clinic, or hospital where the infant or toddler comes for short periods of time (e.g., 45 minutes) to receive services. These services may be delivered individually or to a small group of children.

Special Purpose Center - e.g., Program Designed for Children with Developmental Delays or Disabilities; this setting refers to an organized program of at least 1 hour in duration provided on a regular basis. The program is usually directed toward the facilitation of one or more developmental areas. Examples include early intervention classrooms/centers and developmental child care programs.

Eligibility Criteria

Confirmation of developmental delay: Functioning at half the developmental level in one (1) developmental domain that would be expected for a child considered to be developing within normal limits and of equal age OR decision made through informed clinical opinion

Medical Condition Associated with Mental Retardation/Developmental Delay Exists

Physician Confirmation of Other Condition Associated with MR/DD

Very Low Birth Weight: Physician confirmation of conditions diagnosed at birth or within 30 days post birth (newborn conditions).

Very low birth weight (VLBW: less than 1,500 grams) with one or more of the following conditions:

- Apgar of 6 or less at 5 minutes
- Intracranial bleeds (Grade II, III, or IV)
- Ventilator dependent for 72 hours or more
- Asphyxiation

NOTES:

If the county's actual % of the population served is at or over 1.75%, it is in boldface.

"1.75% of Pop" and "2% of pop" are rounded to a whole number of children.

Under 3 Population is based on 2006 US Census Estimates

County determined based on county of residence for child as of the report date above, which might be different than the county to which the child was originally referred.

Data as of Report Date:

2/19/2008
